CS110 / INDEPENDENCE ROAD

Review status

Calculated awaiting instructor review

Attention Accord plan

mission

A 2-D wave-based game with escalating difficulty as the rounds progress. Online/offline, up to 4 players total.

The main goal is to see how far you can get until the enemies overwhelm you and defeat you.

framework

P2P can be advantageous in the development by guiding us to the end point of where our team wants the game to stand. There is not much of a story to derive from this type of game, as opposed to other single-player, story mode games, but an underlying story to the characters can help immersify the fans.

pipeline

Unnamed stage

Story goal 2026-11-10T12:45 to 2026-11-10T13:45 Pacific

Inputs / assets 2026-11-10T13:45 to 2026-11-10T14:45 Pacific

Build + configure 2026-11-10T14:45 to 2026-11-10T15:45 Pacific

Output / scene 2026-11-10T15:45 to 2026-11-10T16:45 Pacific

Test + handoff 2026-11-10T16:45 to 2026-11-10T17:45 Pacific

Pipeline to get the story to become a reality. Design and being creative with the characters, story, enemies, and weapons should be a main focus.

tech

Definitely will be using Unity, and even moreso a 2-D template as the foundation. C# with all its variables and functions.

Time code

Classes & components

Class | Responsibility | GameObject

EnemyAI | Determines movement and attacking | Enemy character/icon

PlayerController | How the user moves and attacks | Player character/icon

ScoreManager | Points tracker to purchase/upgrade weapons and others | Scoreboard on side tallying points

f(x) Functions

Function | Inputs result | When called

PlayerMovement | WASD/Controller joystick | Player moves as intended

Variables / properties

Name : type | Value / purpose | Used by

Weapons | Multitude of variety with different damage | Only the user

communication

Team check-ins

Description / contact / owner | When Pacific | Agreed

After class on Tuesdays | 2026-11-10T15:30 | [x]

CS110 / INDEPENDENCE ROAD

After class on Thursdays | 2026-11-12T15:30 | [x]

reuse

The whiteboard, storyboarding process can be a concept that is easily transferable across projects and different stories. Understanding every element of the story is what builds and drives the foundation. It guides where the story will and should end.

boardNotes

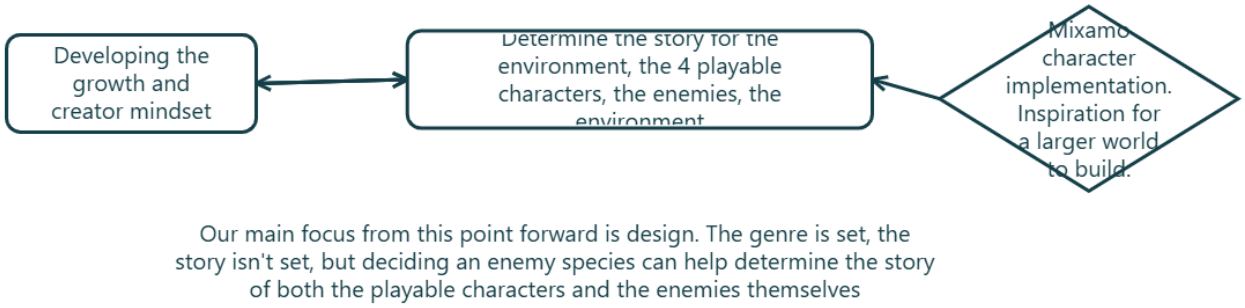

Black Ops Zombies arcade was the main inspiration for the game. Different enemies, characters, stories and whatnot, but a 2-d wave-based game that increasing in difficulty. The remaining questions revolve around ui and design; what the enemies and characters may look like

Whiteboard

Focus on design and the story of our characters.

Why are they fighting to survive in this world?

Where even is this world and who the heck are these enemies?

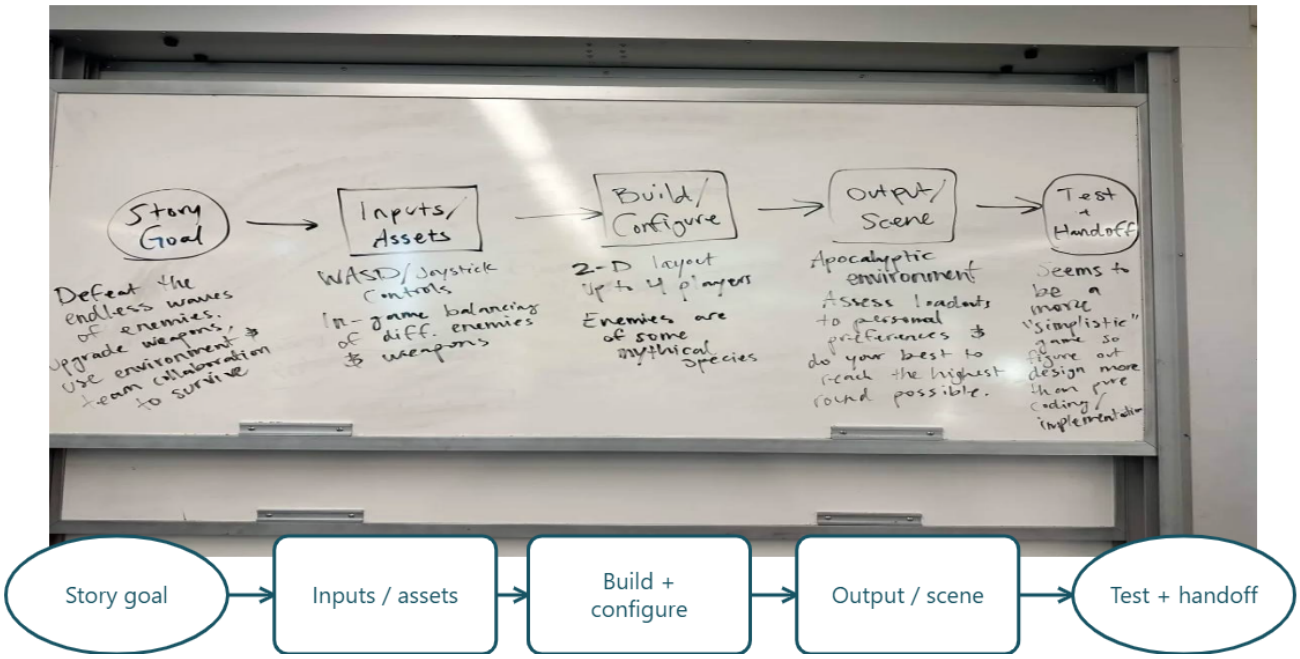

Our main focus from this point forward is design. The genre is set, the story isn't set, but deciding an enemy species can help determine the story of both the playable characters and the enemies themselves

Whiteboard

Pipeline to get the story to become a reality. Design and being creative with the characters, story, enemies, and weapons should be a main focus.
