CS110 / INDEPENDENCE ROAD

reportA / David Lopez

Issued: Nov 10, 2026, 4:15 PM Pacific

Record: FORM-63D24D3FB93CE4BAA7293CD0

Personal public verification code: VIEW-58B88086C24D1EC7948F0B39

Include your own public code with every assignment, even in a team folder. Never submit your private recovery key.

SHA-256: 597a7b2e3596ea2094d8bda2819b3ecfd010bc3077b22a6f78885236083f4e5d

Verify the record number at courses.addp2p.com/development-road/independence/index.html?view=verify

An issued record preserves submitted information. It is not a grade or proof of comprehension.

What did you complete today? Explain your personal contribution and the plan ready for Day B.

Today was a fairly strenuous class and overall lesson. Slowing down the attention span and honing in on one thing at a time. Reading through the extent of the assignment and applying the necessary requirements. Staying way past classmates to show perseverance and overcoming challenges when stuck on difficult sections.

Personal GitHub checkpoint/commit and paths to PDFs, notes, boards, task list and team link (if teamed).

All documentation and records are contained in my personal github for week 12.

Your next task, deadline and blocker/recovery plan.

Next task for Thursday is to go back to the game we began brainstorming about and progress further. Focusing on that and the team collaboration as opposed to working individually.

reviewedPlan

mission

A 2-D wave-based game with escalating difficulty as the rounds progress. Online/offline, up to 4 players total.

The main goal is to see how far you can get until the enemies overwhelm you and defeat you.

framework

P2P can be advantageous in the development by guiding us to the end point of where our team wants the game to stand. There is not much of a story to derive from this type of game, as opposed to other single-player, story mode games, but an underlying story to the characters can help immersify the fans.

pipeline

Unnamed stage

Story goal 2026-11-10T12:45 to 2026-11-10T13:45 Pacific

Inputs / assets 2026-11-10T13:45 to 2026-11-10T14:45 Pacific

Build + configure 2026-11-10T14:45 to 2026-11-10T15:45 Pacific

Output / scene 2026-11-10T15:45 to 2026-11-10T16:45 Pacific

Test + handoff 2026-11-10T16:45 to 2026-11-10T17:45 Pacific

Pipeline to get the story to become a reality. Design and being creative with the characters, story, enemies, and weapons should be a main focus.

tech

Definitely will be using Unity, and even moreso a 2-D template as the foundation. C# with all its variables and functions.

Time code

Classes & components

Class | Responsibility | GameObject

EnemyAI | Determines movement and attacking | Enemy character/icon

PlayerController | How the user moves and attacks | Player character/icon

ScoreManager | Points tracker to purchase/upgrade weapons and others | Scoreboard on side tallying points

CS110 / INDEPENDENCE ROAD

f(x) Functions

Function | Inputs result | When called

PlayerMovement | WASD/Controller joystick | Player moves as intended

Variables / properties

Name : type | Value / purpose | Used by

Weapons | Multitude of variety with different damage | Only the user

communication

Team check-ins

Description / contact / owner | When Pacific | Agreed

After class on Tuesdays | 2026-11-10T15:30 | [x]

After class on Thursdays | 2026-11-12T15:30 | [x]

reuse

The whiteboard, storyboarding process can be a concept that is easily transferable across projects and different stories. Understanding every element of the story is what builds and drives the foundation. It guides where the story will and should end.

boardNotes

Black Ops Zombies arcade was the main inspiration for the game. Different enemies, characters, stories and whatnot, but a 2-d wave-based game that increasing in difficulty. The remaining questions revolve around ui and design; what the enemies and characters may look like

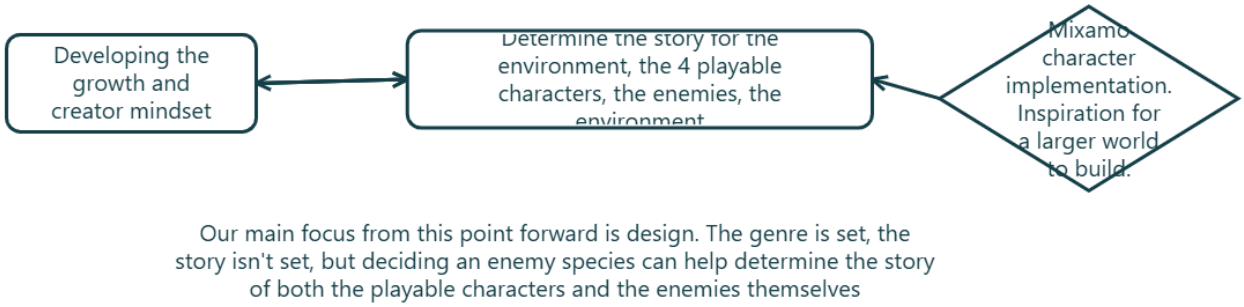

Whiteboard

Focus on design and the story of our characters.

Why are they fighting to survive in this world?

Where even is this world and who the heck are these enemies?

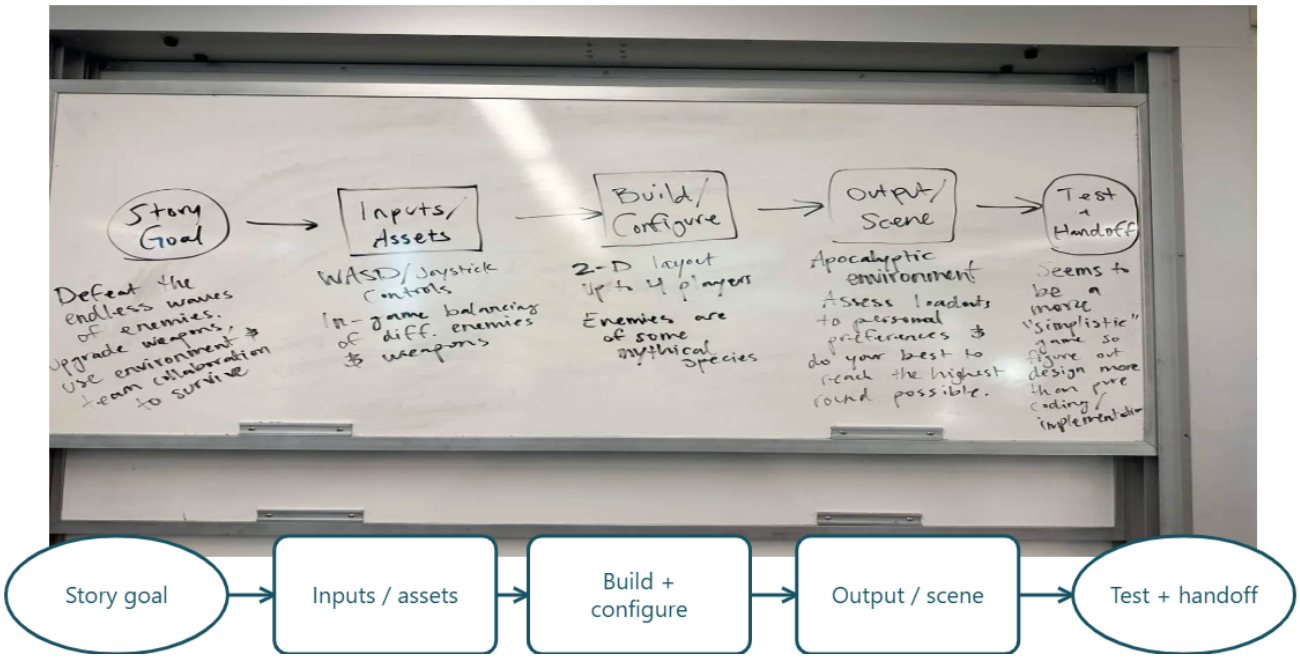

CS110 / INDEPENDENCE ROAD

Our main focus from this point forward is design. The genre is set, the story isn't set, but deciding an enemy species can help determine the story of both the playable characters and the enemies themselves

Whiteboard

Pipeline to get the story to become a reality. Design and being creative with the characters, story, enemies, and weapons should be a main focus.
